RANGE OF EV CHARGING SOLUTIONS

hypercharger

Future of EV Charging

*#First In India to develop
ML Based Charging
Controllers &
HyperChargers for EV
Charging in 20 Minutes*

LEVEL 2 CHARGING

4G, BLE, WIFI, LAN, RFID
- Intelligent Processor

High-quality equipment for home & business

Up to 7kW to 22kW output

120 Minutes ACHyperCharge Tech

22 KW | AC FAST CHARGER

FEATURED PRODUCT

MEGACHARGE 161 – HYPER-FAST & MOBILE (161KW)

- Compact and easy to deploy mobile charger
- Delivers DCFC in 20 Minutes for EV
- Ideal for High-traffic areas, major highways, and busy urban centers
- Constant operation and fast deployment in 15 days

hypercharger

161 KW | DC2DC

DC HYPERFAST CHARGERS 30 TO 240 KW

- Easy to deploy with one-touch operation
- Accurate and reliable billing with CSMS
- Realtime Connectivity
- CCS2 and OTA Updates
- IC3 Controller with ML to reduce battery degradation
- Remote Monitoring
